HoVRboard

Physical Model

Waiting for spring and swivel fixture part
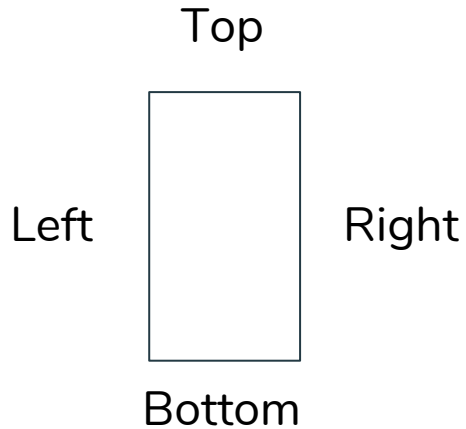

Have a prototype board

Can move in all 4 directions

Has vive tracker attachment

Physics

Movement

Top

Left   Right

Bottom

When you crash into the floor, it's a very bad time

Currently when crashing, screen turns into TV static

Terrain

- Added snow textures
- Created Igloo Village
- Added more rocks and trees
- Created by the awesome Minsun & Rachel

Edward's Fabulous
Models Part 2

Goals for next week

- Get rid of motion sickness!!!
- Have a more stable board
- Fill up more areas in the Terrain with more models
- Update sound effects
- Better particle physics, very laggy right now
